

**Resolution 2013-13**  
**AMENDMENT TO RESOLUTION 2011-10**

Section 2. That it shall be the Policy of the District that households experiencing leaks in their water line shall be given a credit on their sewage use fees provided that:

1. The leak occurs on the outside or inside of the house so that the leaked water does not flow directly from the sewers and drains of the house into the sewers and drains of the District; and
2. The leak has been repaired; and
3. Proof of the repair along with a copy of the bill for the repair work or a statement from the household resident or owner that the leak has been repaired; and
4. An additional statement on the repair bill or from the household resident or owner describing the location of the leak in sufficient detail as to allow the District to determine that the leak occurred on the outside of the house so as not to go into the sewer and drain that is connected to the house.

The credit adjustment shall be made by the Sewage Utility Office and shall be in an amount that is equal to that of the average sewage bill normally assessed to the household as if no leak had occurred. This credit is only applicable one time every 24 months.

Section 6. Conflict With Current Policies. All current policies or parts of current policies that are in conflict herewith are hereby repealed to the extent of that conflict.

Section 7. Effective Date. This resolution and the Policies created herein shall be in full force and effect from and after this resolution's passage.

Approved this 5<sup>th</sup> day of March 2013.
